

## The Hannah Happenings, 1989-2008

The Annual Hannah Happening was founded in January 1989 to provide the medical community, especially medical students, the opportunity to hear a first-hand account of significant achievements in the history of medicine. Usually held in January or February of each academic year, distinguished speakers delivered a forty-minute address, received questions, and were feted at a University Club reception following.

The lectures have been videotaped and are deposited in the Queen's University Archives where they can be consulted by scholars.

The Hannah Happenings include:

14 February 1989

**Dr. H. Botterell and Dr. A. Jousse**

"Treatment of Spinal Cord Injuries in Ontario"

31 January 1990

**The Honorable Emmett Hall, Dr. Leslie Falk, C. David Naylor**

"Private Practice, Public Payment: Reflections on the Origins of Canada's Health Care System"

5 February 1991

**Dr. W.G. Bigelow**

"Cold Hearts and Vital Lessons"

4 February 1992
